

## 2024 IP 101 Course

The IP 101 Course is intended for those who have worked in infection prevention for under two years but can also be a refresher for the more experienced infection preventionist. This course serves as a starting point and foundation for new infection preventionists to build and expand on their knowledge and resources, with each class providing valuable information on topics and tools integral to infection prevention.

Attendees will need to register (below) for each individual class they would like to attend.
